

The BUSINESS EDGE Release Notes – January 2015

New BUSINESS EDGE 4.0 Features

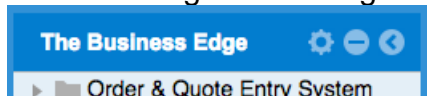

1. The tbe4 application is all around faster. Improvements have been made to memory management, speed of response evaluation, reduced size of responses, removed redundant processing.

2. There is a new contemporary default theme. The old default theme is still there, it has been renamed "Classic Theme".

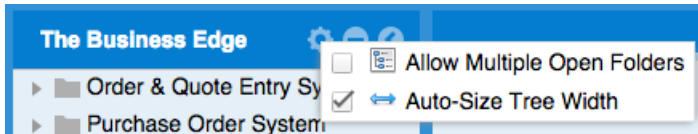

3. The menu tree now has a settings gear that allows you to choose if you want to allow multiple open folders and if you want the tree to automatically resize so that the menu item descriptions always have enough room.

Click on the gear icon to get the menu

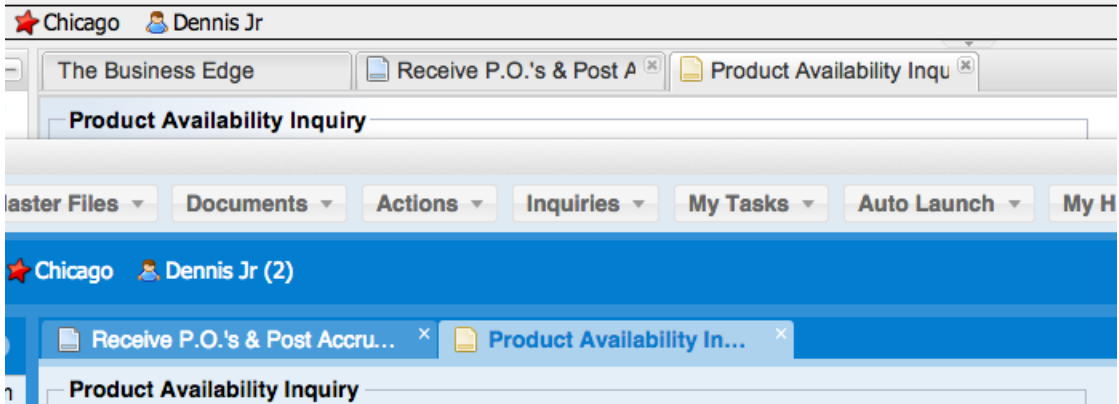

Use the check boxes to make your choices.

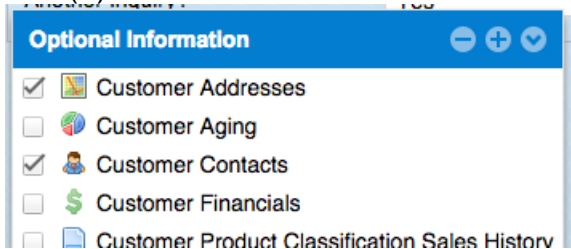

The BUSINESS EDGE Release Notes – January 2015

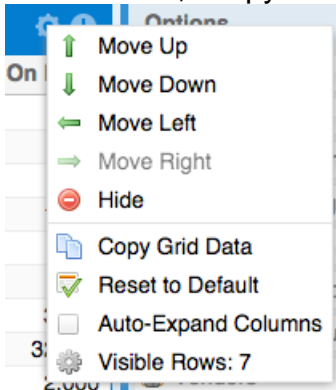

4. We removed "The Business Edge" splash screen tab which allows for wider tabs that can show longer descriptions.
Here is an example of a tbe4 window on top of The BUSINESS EDGE 2.0 window with the same tabs open.

5. The "Optional Information" lists now have a heading with options to (-)Hide All and (+)Show All.

6. The moving options and reset to default options have been moved to the settings menu. New setting options for Optional Information grids have been added: Hide, Copy Grid Data and Visible Rows.

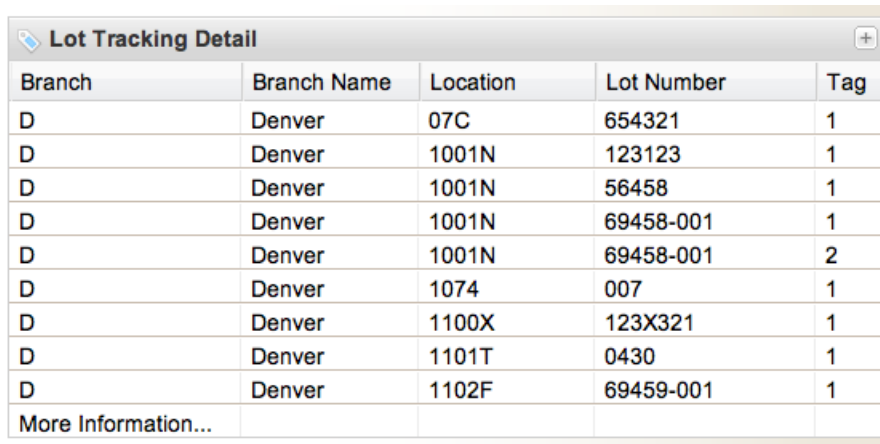

7. Visible Rows in optional information grids allows you to set the number of rows to show. The grids now have a More/Less tab under them when appropriate. The

The BUSINESS EDGE Release Notes – January 2015

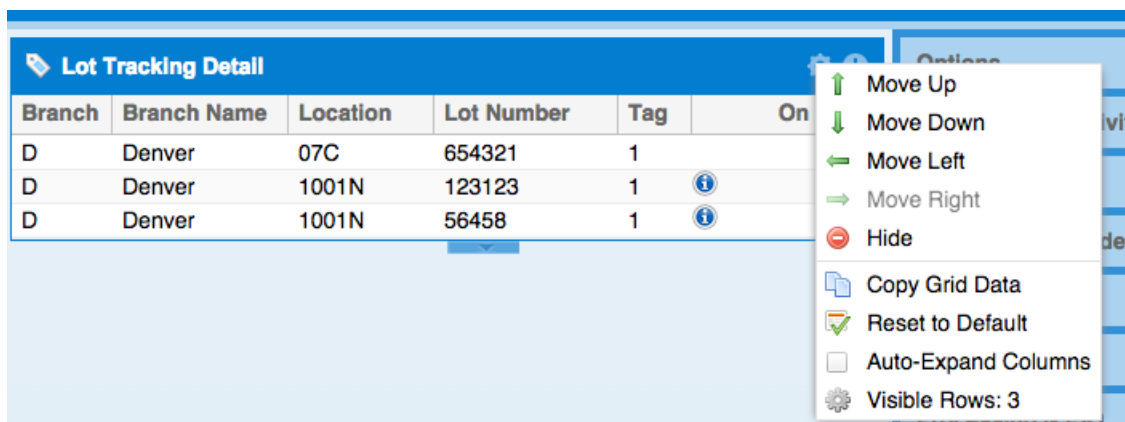

number of visible rows is now user definable, the default is 9 for the maximum. If you expand it to everything it will remember and always show everything. An example is Lot Tracking Detail or Order Detail Lines that can be hundreds of lines. This feature can also be used to reduce the number of things shown. For example you might only want to see the last three recent customer notes instead of the last nine. The BUSINESS EDGE 2.0 shows a 10th row with "More Information..." in the first cell and you have to click the (+) button to drill in to see more information.

The BUSINESS EDGE 2.0 looks like this, notice the last row says, "More Information..."

Branch	Branch Name	Location	Lot Number	Tag
D	Denver	07C	654321	1
D	Denver	1001N	123123	1
D	Denver	1001N	56458	1
D	Denver	1001N	69458-001	1
D	Denver	1001N	69458-001	2
D	Denver	1074	007	1
D	Denver	1100X	123X321	1
D	Denver	1101T	0430	1
D	Denver	1102F	69459-001	1
More Information...				

The system will now show a "More" tab instead of a row with "More Information..." The limit can be configured by the user with the settings gear and can be temporarily expanded to show everything by clicking on the "more" tab at the bottom of the grid. Click on the gear icon to get to the "Visible Rows" option. The + button still works the way it always has and drills into the information by using the entire tab space.

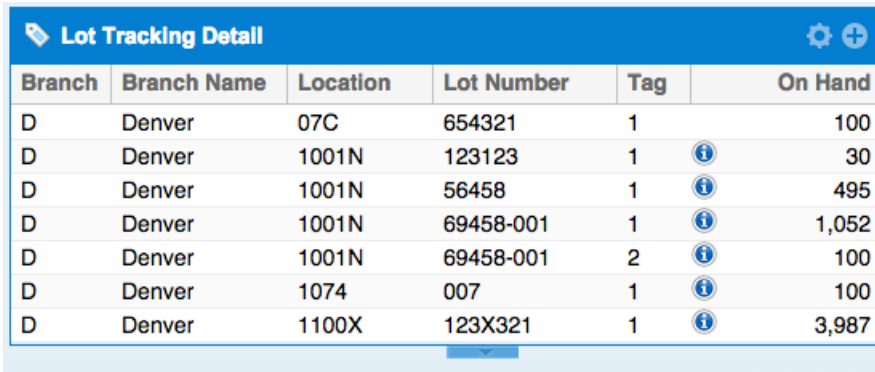

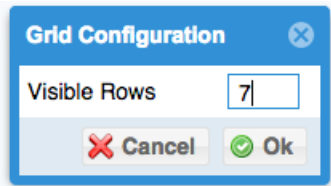

Branch	Branch Name	Location	Lot Number	Tag	On
D	Denver	07C	654321	1	
D	Denver	1001N	123123	1	
D	Denver	1001N	56458	1	

- Move Up
- Move Down
- Move Left
- Move Right
- Hide
- Copy Grid Data
- Reset to Default
- Auto-Expand Columns
- Visible Rows: 3

Click on "Visible Rows" to change the value, in this example I will change it from three to seven.

The BUSINESS EDGE Release Notes – January 2015

A table titled "Lot Tracking Detail" with a settings gear icon and a plus sign in the top right corner. The table has six columns: Branch, Branch Name, Location, Lot Number, Tag, and On Hand. It contains eight rows of data. The last row has a blue arrow pointing down at the bottom center, indicating it can be expanded.

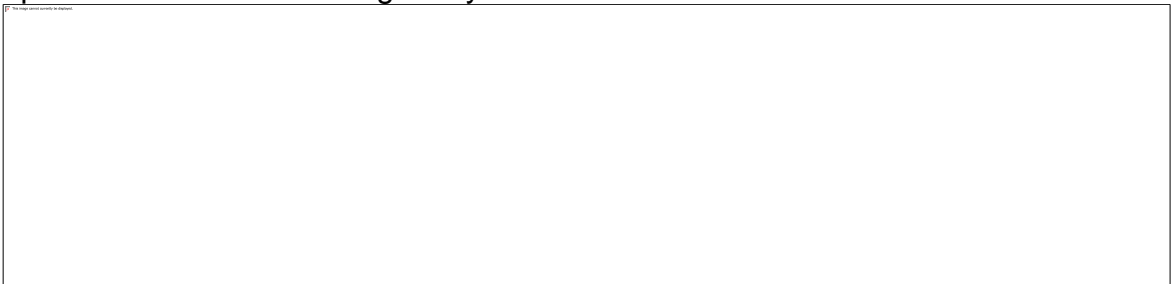

Branch	Branch Name	Location	Lot Number	Tag	On Hand
D	Denver	07C	654321	1	100
D	Denver	1001N	123123	1	30
D	Denver	1001N	56458	1	495
D	Denver	1001N	69458-001	1	1,052
D	Denver	1001N	69458-001	2	100
D	Denver	1074	007	1	100
D	Denver	1100X	123X321	1	3,987

Click the "More" tab at the bottom to expand it to show everything. This will make it expand to show everything and the "More" tab will turn into a "Less" tab to use to collapse the grid back to your "Visible Rows" size.

8. If you have your products associated with Able Label categories there is now an option to see the label image on your screen.

9. If you are using our mobile signature capture feature you can now have the option to see the signature on the screen.

The BUSINESS EDGE Release Notes – January 2015

10.

The screenshot displays the 'Order Inquiry' window in the BUSINESS EDGE software. The window is divided into several sections:

- ORDER INQUIRY:** Contains fields for Order Number (151685), Customer P.O. #, Internal Reference, Job #, Type (Firm Order), Customer (459376 Fasteners Now International LLC (Notes 09-23-14)), Phone Number ((312) 588-2300), Fax Number, and Salesperson (DM Don Murphy).
- Optional Information:** A dropdown menu is open, listing various information categories with checkboxes. The 'Delivery Signature' option is checked. Other options include Addresses, Contact Information, Customer Financials, Document Output History, Miscellaneous Charges, Order Profitability, Order Totals, Problem Documents, Recent Customer Notes, Recent Order Notes, Sales Tax, and Shipper Information.
- Delivery Signature:** A section on the right showing the signature details: Name Signed (Dennis Cowhey Jr) and Signed (09-29-14 10:06am). Below this is a large area containing a handwritten signature.

At the bottom right of the window, there are buttons for 'Delete', 'Cancel', and 'Ok'.
