DW FASTENER - INDUSTRIAL SUPPLIES SINCE 1954

by Dennis Cowhey, President, Computer Insights

DW Fastener is a leading supplier of industrial products, including fasteners, abrasives, foundry supplies, and saws, drills, and threading tools. They offer high-quality solutions that meet project requirements and are committed to providing exceptional customer service and support.

Origin Story

DW Fastener was established in 1954 by Dorothy and Wilfred Stadter, a husband-and-wife team who initially operated out of the trunk of their car. Using the time-proven formula of providing quality fasteners with responsive service to meet the customer's needs, the company has grown and moved to larger facilities.

In 1984, the company moved to its present location, which has expanded. During that time, new product lines have been added, including abrasives, cutting tools, and more!

Continued Growth & Success

Brandon Moore purchased DW Fastener in 2016. The company was operating 90% on paper, including payroll!!! With no prior experience in the fastener industry, it took a year to learn the business, another couple of years to implement technology to improve business processes, and IMPROVE they did!

DW Fastener decreased inventory costs and lead times, increased gross and net profit margins, and enhanced the customer, vendor, and employee experience every day! What a win/win/win! Brandon knew they needed to modernize to be more successful.

"The Business Edge™ by Computer Insights, Inc.

played a crucial part in transforming our business by increasing productivity and helping us gain access to our business-critical information."

A Bright Future

DW Fastener is currently engaged in plans to expand again with additional square footage at its current warehouse location in Barberton, OH. The extra warehouse space will allow DW Fastener to stock more products for immediate shipment to our nationwide customers. Their website dwfastener.com is fully integrated with our warehouse management system, "The Business Edge™", allowing our customers to see exactly how much stock we have on hand and how quickly they can receive it. They serve all industries and leverage our 200+ vendor network to source the best quality product at the best price. We currently stock 30,000+ SKUs, with plans to expand to 50,000+. In addition, they have one day's access to hundreds of thousands of additional SKUs. They can probably get what you need within a day if they don't already have it in stock.

DW Fastener is still a family-owned and run business led by Brandon Moore as President, Zach Moore as Supply Chain Manager, and Adylin Moore as Assistant Branch Manager. Brandon Moore shared, "We are committed to providing our customers with unmatched service and are proud to work for them every day; they make us great, and we appreciate all of them!"

Industrial Fasteners

Industrial fasteners are critical for securely joining two surfaces or objects in various applications. DW Fastener has built a reputation for supplying high-quality fasteners to end-users with quicker turnaround times than its competitors. Their experienced inside sales team is willing to work with you during every step of your order and answer any questions that you may have so that you are sure to get the correct fasteners for your applications. With an inventory of over 30,000 products, they are sure to have what you need.

Standard, Metric & Custom Fasteners

They utilize their extensive selection of industrial fasteners and can stock and supply them in various sizes, materials, and finishes. Their fasteners are available in metric and imperial sizes and can be customized based on your needs.

Industrial Fastener Sizes

DW Fastener carries industrial fasteners in a variety of sizes. It also offers custom in-house capabilities to create custom threading for more unique or specialty applications.

- **Standard Fastener Diameters** – #0 – 3"
(Larger diameters available)
- **Metric Fastener Diameters** – M2 – M36
(Larger diameters available)

Custom Machining Options

Their fasteners can be finished with a variety of coatings, such as plain, hot-dipped, and galvanized, for increased durability in high-stress applications. Additional finishes include our popular zinc-plated coating.

Industrial Fastener Materials

DW Fastener has been building meaningful relationships with our trusted network of fastener suppliers since 1954. We utilize our relationship with over 300 manufacturers, master distributors, and specialty distributors worldwide to source a wide variety of the highest-quality fasteners available to you. Available material options include:

- Steel
- Stainless Steel
- Nylon
- Aluminum

Specialty Industrial Fasteners

Specialty fasteners are specifically manufactured fasteners designed for a particular application or project. DW Fastener is ready to fulfill low-volume and bulk orders of specialty fasteners, including socket-head cap screws, hex-head cap screws, and application-specific fasteners. Their specialty fasteners can be built in multiple grades and paired with aligning orders of nuts, bolts, and hardware products. Fastener customization options include project-specific dimensions, strength requirements, and more.

DW Fastener's knowledgeable staff is ready to collaborate with you and answer questions about their quality line of industrial products to ensure that you get the specialty fasteners you need. By utilizing its trusted material suppliers, on-site managed inventory services, and state-of-the-art warehouse capabilities, they can supply you with higher-grade products at faster delivery times than its competitors.

Your Source For Industrial Supplies

- Fasteners
- Saw/Drill/Thread
